

Judges in Support of the AKC Rottweiler Standard Revision

Hello Fellow Rottweiler Friends,

You should have received your ballot from the American Rottweiler Club to vote on a standard revision to include a description of the undocked tail for the AKC Rottweiler Standard.

As members of the ARC and AKC Judges of the Rottweiler, we approve of this change.

Please join us and the hundreds of members who signed the initial petition in voting yes on this revision to provide a description of an undocked tail for judges to reference in the AKC ring.

We fully support and will continue to advocate for the right to dock our dogs in this country, but believe this change is in the best interest of our beloved breed.
